

# The Elephant

Went to the Doctor's.

And sat down in the chair.

And the Doctor said .

Why does it hurt and where ?

And the Elephant said .

I have terrible ache in my ears,

And he opened his ears so wide.

The doctor laughed « Oh isn't this fun? »

As he pulled the ears out one by one,

And the Elephant cried « You're hurting me so ! »

Please put down you pliers and let me go. « But the doctor laughed with a Ho Ho Ho. »

But what's one Elephant ears more or less ?

Then suddenly he kicked him and he fell down.
